NOTED _____

PM-1311

Dear Jim:

I spoke with Dee Shannonhouse a few months ago regarding the Substitute Smoking Device using pressurized gas or liquid fuel (PM-1311). It was my understanding that, at that time, inventors Decker and Sprinkel had not yet fully designed the device. Please let me know of any further developments in this case.

I have docketed this case for reevaluation in three months if more information has not come to hand prior to that time.

Sincerely,

Christopher P. Godziela
